## Get the Harvest

Located right beside Highway 99W, the new Monroe Farmers Market brings local artisans and food producers together every week to celebrate the bounty of our community. Connecting local vendors to customers, the market acts as a hub to buy and sell local edibles and handcrafted gifts.

## Discover something new each week

Support local agriculture and help build a healthy community. Stop by the Monroe Farmers Market every week to shop for food and gifts. Connect with your neighbors, local artisans and craftspeople. A stronger economy starts at home.

## Want to get involved?

To support our local farmers and economy, we are ready to scale up to accommodate additional booths and vendors. As a member of Oregon Farmers Market Association (OFMA), we will align with statewide practices and can assist in compliance with the necessary licenses and regulations.

Additionally, there is room for volunteers to help in many other capacities. Let's talk!
