### MEETING NOTES:

The work session was facilitated by RJ Theofield, City of Monroe's Community Development Coordinator. RJ began by sharing that the only task the Commission had on the agenda tonight was to review the results of the Monroe Tomorrow Public Feedback Survey. RJ discussed the rationale and inclusionary methodology used to conduct the survey.

The Commission then began reviewing each portion of the Monroe Tomorrow Public Feedback Survey Results document. The results document followed each section of the Monroe Tomorrow document – Vision, Locational Advantage, Governance, Housing, Business Community, Riverside District, Quality of Life. Following the review and discussion of the results for each section, Commissioners analyzed the statements in Monroe Tomorrow to ensure comments and criticisms were addressed. Edits were made to the Monroe Tomorrow document. Based on the results, the Commission expressed their desire to include additional aspirational statements in the Monroe Tomorrow document. One aspirational statement regarding infrastructure and another regarding ecosystem quality. These additional aspiration statements will be further flushed out and drafted by city staff.
